Instagram Dailies

One prompt a day that keeps long-distance friends part of each other's lives.

Mykayla Liu, Valerie Zou, Maggie Lu, Prateek Nedungadi

Generation Z is widely documented as the loneliest generation.

THE PROBLEM

“Our friend group lives across the country, and I don't want us to drift apart.”

Group chats go quiet when friends' lives stop overlapping. Without something shared to react to, every conversation needs an excuse, and over time nobody sends the first message.

PAIN POINTS

We identified 3 things pull distant friends apart:

1

Different time zones

Lunch for one friend is late night for another, so live moments rarely line up.

2

No shared circumstances

Different cities, jobs and routines leave fewer common topics to start a conversation.

3

No shared experiences

Friends see each other's highlights but never do anything together, so there's little to talk about.

OBJECTIVE

Create a way for friends to have a shared experience that gives them a reason to talk.

DESIGN CRITERIA

Any solution has to…

- **Work across time zones**
  No need for everyone to be online at the same moment
- **Create common ground**
  Give everyone the same thing to respond to
- **Become a shared experience**
  Something the group does together, every day

IDEATION

We explored four directions

Shared in-chat game

Play something together inside the group chat.

BeReal-type live photo

Everyone snaps an unfiltered photo at the same moment.

Shared feed / content

A group feed of posts and content everyone sees.

Day in the life

Each friend shares snapshots from across their day.

OUR SOLUTION

Instagram Dailies

One shared prompt a day, answered with your camera, right inside your group chat.

USER EXPERIENCE

How a Daily works

1

12:00 PM

Prompt drops

Everyone in the chat gets the same random prompt.

2

SNAP

Answer with the camera

Respond with a photo, wherever you are.

3

SEE

Friends' answers

Responses show up in the chat at the end of each user's day.

4

REACT

React and reply

Every answer becomes a reason to start a conversation.

5

KEEP

Archive and streak

Each Daily is saved and the group streak grows.

PROTOTYPE

Easily accessible through each Instagram group chat

Any member activates Insta Dailies from the same chat button used to start a Blend. From then on, a new Daily lands in the group chat every day at 12 PM.

Daily streaks holds the group accountable

SCOPE

What we left in & what we cut

IN SCOPE

DailyPrompt
A randomized prompt at 12 PM, the same for everyone in the group chat.

Group-chat activation
Turned on from the same button used to start a Blend.

Daily streaks
The group keeps a streak alive by showing up each day.

DESCOPED (FOR NOW)

“Pet” companion
An animated character that stays alive based on streaks. Fun, but not needed to prove the core loop.

Multiple prompts a day
One prompt keeps the Daily a moment, not a chore.

MVP

Five features, one daily loop

One random prompt a day

The same prompt for the whole group.

Camera response

Answer in the moment with a photo.

See friends' responses

Everyone's answers side by side.

React

Quick reactions that open up conversation.

Shared archive

Every past Daily, saved for the group.

Prompt → Respond → See → React → Remember

WHY IT WORKS

Back to the problem

Different time zones	Everyone answers the same prompt on their own schedule, so no one has to be online at once.
No shared circumstances	A shared prompt creates common ground out of very different days.
No shared experiences	A daily ritual, a streak and an archive give the group something they do together.

Thank you !!

Instagram Dailies: one prompt a day to keep friends close, wherever they live.
